EDUCATION

University of Central Florida

Expected: Dec 2026

Bachelor of Computer Science

GPA: 4.0

Relevant Courses: Processes of Object Oriented Programming, Database Systems, Object Oriented Programming, Computer Organization and Logic, Security in Computing

SKILLS

Programming Languages: Python, Java, JavaScript, C

Web Dev: React, OpenAI, Milvus, LangChain, Llama, Firebase, Clerk, HTML/CSS

Frameworks: NextJS, Tailwind CSS, NodeJS, Figma, Material UI

CERTIFICATION

AWS Certified Cloud Practitioner • Pre-Engineering Certification • Robotics Certification • Microsoft Office 2016

WORK EXPERIENCE

Headstarter AI

Jul 2024 – Sep 2024

Software Engineering Fellow

- Acquired proficiency in 9 technologies and frameworks through hands-on learning and project development over the 7-week fellowship
- Designed 4-5 projects addressing real-world problems, achieving a user base of 70+ across all projects
- Collaborated with fellow participants to develop an automated job application platform aimed at attracting 100+ users

Codify

Jun 2022 – Jul 2022

Mentor

- Mentored 30+ students, addressing Python-related questions during live lectures to enhance comprehension of key topics
- Led groups of 5-8 students through hands-on Python projects, offering tailored guidance and support for assignments
- Guided students in applying lecture content to practical coding tasks, ensuring real-time learning and problem-solving

PROJECTS

Quick Flash - quickflash.vercel.app

Aug 2024

JavaScript, Next JS, Material UI, Llama, Firebase, Clerk

- Built an AI powered flashcard creator, allowing users to generate flashcards manually or through user-specified prompts
- Integrated Clerk for authentication, enabling free flashcard creation while restricting the save feature to signed-in users
- Designed customizable features, permitting users to edit, delete, or view flashcard sets through a personalized dashboard

Profspective - profspective.vercel.app

Aug 2024

JavaScript, Next JS, Material UI, Llama, Milvus, LangChain, Clerk

- Created a dashboard for students to view their universities and classes, allowing access to professor ratings and reviews
- Integrated AI-generated reviews that summarize professor performance based on existing feedback and rating
- Developed a RAG-based chatbot with Milvus as the vector database, allowing responses based on live professor reviews

CelebBot - celebbot.vercel.app

Jul 2024

JavaScript, Next JS, Material UI, Llama

- Developed a chat interface with Next.js and Material UI, enabling 10+ users to converse with their favorite celebrities
- Implemented Firebase email authentication for 100% secure sign-ins with Higher Order Components as Middleware
- Created auto-scroll and clear chat features, improving usability, and achieving a 30% increase in user satisfaction

HONORS AND ACTIVITIES

Burnett Honors Scholar • Florida Bright Futures Academic Scholar • AI @ UCF • President's Honor Roll • Knight Hacks • Red Cross • ACM
